Wednesday 13 th	Kinder 2018 Orientation Kinder Parent Information Session – 2.00pm followed by P&C Welcome Afternoon Tea
Friday 15 th	Year 6 Farewell Lunch Last Day Term - Students

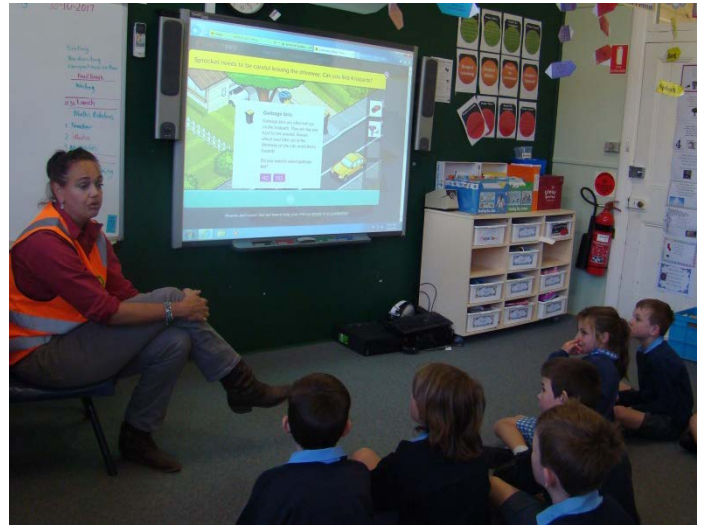

Life Education Van

Last Monday we had a fun filled learning day with Happy Harold from the Life Education Van. We joined Brocklesby students in learning about the many different topics that keep us safe and healthy.

The Kindergarten and Year 1 students learnt about the benefits of including a nutritious diet, physical activity and how our body reacts in new situations. Students in Years 2 and 3 had an informative session on the functions of various body organs such as the heart, lung, brain and kidneys. They also explored ways to manage peer pressure and the importance of exercise and healthy choices. Years 5 and 6 focussed on improving their decision making by looking at choices, consequences, peer influences, cyber safety and cyber ethics. Photos of the day's learning are included in this newsletter.

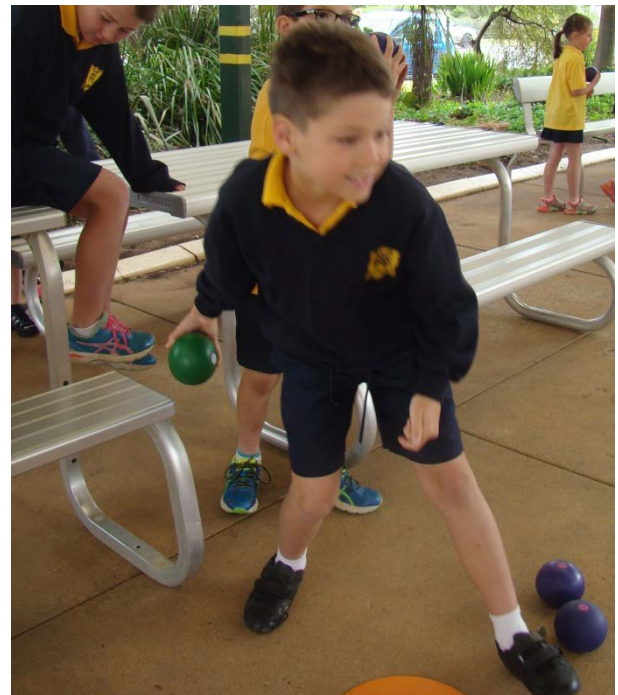

Bowls

Last week we enjoyed our first session of bowls. All the students were enthusiastic in their participation and listened attentively to David's coaching and advice. The students rotated through a number of activities aimed at building the minor and major skills required in a game of bowls, along with a little bit of math! The students soon realised that concentration, focus and persistence were the keys to scoring the high points.

As part of the program the school has received a bowls kit, so the students can continue to refine their skills and enjoy the inclusive nature of the game. David, our Bowls coach will return to our school to recommence the sessions on the 23rd and 24th of November.

Intensive Swimming Program

Please read the information in the intensive swimming program note being sent home. Swimming will commence in Week 7 and concluding at the end of Week 8. Permission notes need to be completed and returned to school by Thursday 16th November. Please ensure that all belonging are clearly labelled with your child's name on them. We will be having our swimming lessons with students from Walbundrie Public School.

Kinder Orientation

Yesterday we welcomed our Kindergarten students for 2018 for their first orientation day. They participated in a range of literacy, numeracy, movement and art activities to give them a taste of the variety on offer at school. Our current students represented the school with pride by modelling good behaviours and offering help and advice to our new students. We look forward to seeing Jasmine, Max, Bonnie and Coby next week so we can share more of what Rand Public School has to offer!

Student Representative Council (SRC)

The SRC will be selling Zooper Doopers this term. They will be selling them for 50 cents per icypole. Students can bring their money to school to buy a Zooper Dooper on Fridays during 4! Money raised will be donated to a charity.

Learning Awards

Emily - For displaying a positive attitude to learning and sharing her love of learning with her peers.

Jazmine - For working mathematically on problem solving tasks.
